

Chapter 5: Quadratic Functions and Complex Numbers

Chapter 6: Exponential and Logarithmic Functions

Chapter 7: Rational Algebraic Functions

Chapter 8: Irrational Algebraic Functions

Chapter 9: Quadratic Relations and Systems

Chapter 10: Higher-Degree Functions and Complex Numbers

Chapter 11: Sequences and Series

Chapter 12: Probability, Data Analysis, and Functions of a Random Variable

Chapter 13: Trigonometric and Circular Functions

Grading Policy

Student progress will be assessed each day.

Tests will be given at the end of each chapter/unit and will count for 60% of the grade.

Quizzes will be given on days there are no tests for 35% of the grade.

- All student work on tests and quizzes must be shown to receive credit. Partial credit will be given for correct work
- All assessments will be made up on the day a student returns from an absence

Homework will be checked daily for 5% of the grade

- Homework is graded on a complete / incomplete basis.
- Each homework should be labeled with the correct assignment and date
- Late homework will only be accepted if a student is returning from an absence.
